

COMMUNI3

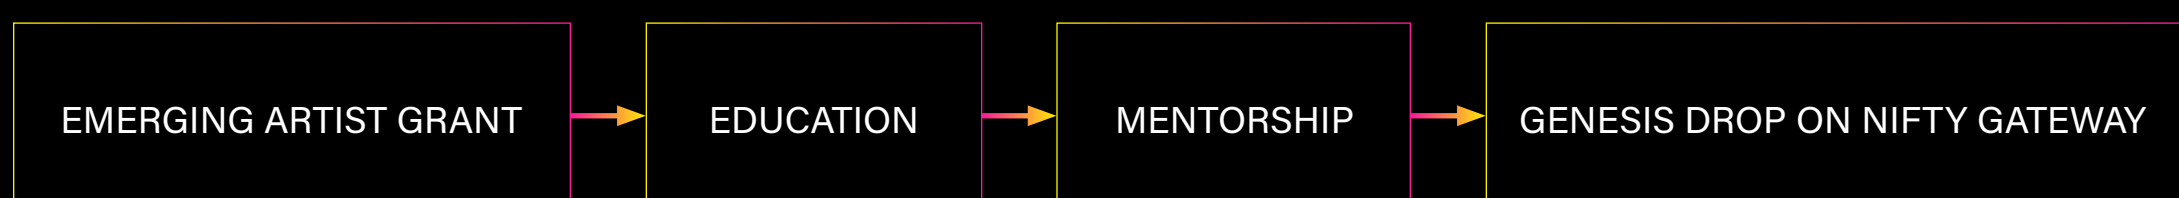

THE FAN3 MEMBERSHIP PASS. CREATED FOR EVERYONE.

MISSION

Fan3 are launching a Communi3 Membership pass to build a community of diverse individuals with shared values. United in a commitment to create a better future together, and find connection in building a more inclusive Web3. Communi3 members will enjoy IRL events, exclusive access to our curated drops and most importantly play a part in the future of the space through our Gen3 project. Gen3 has been created to support emerging artists and celebrate diversity in lived experience and creative form. Finding the stars of tomorrow, whatever their background. The Gen3 journey for creators will be a complete pathway; from our Emerging Artist Grant, a 6 module metaverse education programme, mentorship from leading creators, to finally a genesis drop on Nifty Gateway. Our IRL events will be memorable, our impact together will be a legacy.
